

PREXAparts is Brechmann Handels GmbH & Co. KG's performance brand for high-quality OE ident parts. With over 45 years of experience, we only supply selected ident parts of outstanding quality that meet and often exceed the OE parts standard in terms of precision, quality and function. We deliver top quality at competitive prices – fast, reliable and efficient.

Interior Blower

Benefits at a glance

Production and process safety as well as quality assurance comply with official OE standards

PREXAparts products offer the same accuracy and service life as the original parts

Every product is subject to PREXAparts quality assurance checks

PREXAparts products are designed as 1:1 replacements for OE parts and offer the same reliability

Always up-to-date database of all items – available at any time on TecDoc

Our large stock ensures fast and high availability at all times

Facts & Know-How

The interior blower is a central component of a vehicle's heating, ventilation, and air conditioning (HVAC) system.

The interior blower ensures a supply of fresh air and the even distribution and efficient circulation of heated or cooled air in the vehicle interior.

The constant regulation of temperature and air exchange in the interior is essential for the safety and comfort of the occupants.

The interior blower also ensures rapid defrosting and drying of fogged-up windows, providing a clear visibility and a pleasant, comfortable ventilation.

The interior blower mainly consists of a motor, fan wheel, housing and regulator, and in some cases also an integrated filter.
